Homs, Syria

INDUSTRIAL MOBILE DEVICES SOFTWARE DEVELOPER BAT ONLINE STORE

- **Application Development:** Designed and developed a cross-platform mobile application using Flutter and Dart, focusing on user-friendly interfaces and seamless navigation for wholesale kitchen tools.
- **UI/UX Design:** Collaborated with designers to create intuitive user interfaces and enhance user experience, ensuring the app is visually appealing and easy to use.
- **Backend Integration:** Integrated RESTful APIs to connect the app with backend services, enabling real-time data retrieval and management of product listings, orders, and user accounts.
- **Database Management:** Implemented and managed a database to store product information, user data, and transaction history, ensuring data integrity and security.
- **Testing and Debugging:** Conducted thorough testing and debugging of the application to identify and resolve issues, ensuring optimal performance and reliability across different devices.
- **Performance Optimization:** Analyzed app performance and implemented optimizations to improve load times and responsiveness, enhancing overall user satisfaction.
- **Collaboration:** Worked closely with cross-functional teams, including product managers and marketing, to align app features with business goals and user needs.

- **Deployment and Maintenance:** Managed the deployment of the app to app stores and provided ongoing maintenance and updates based on user feedback and market trends.
- **Documentation:** Created comprehensive documentation for the app's architecture, features, and user guides to facilitate future development and onboarding of new team members.

01/02/2020 – 31/05/2021 Homs, Syria

INDUSTRIAL MOBILE DEVICES SOFTWARE DEVELOPER FACEMOSQUE

- **Application Development:** Designed and developed a Flutter-based mobile application that provides users with local prayer times, event registration capabilities, and a control panel for event management.
- **Feature Implementation:** Implemented key features including user event registration, QR code scanning for invitation verification, and real-time updates for prayer times, enhancing user engagement and functionality.
- **User Interface Design:** Collaborated with UI/UX designers to create an intuitive and visually appealing interface, ensuring a seamless user experience across various devices.
- **QR Code Integration:** Developed and integrated QR code functionality to allow users to verify their invitation status, streamlining event check-in processes.
- **Backend Development:** Worked on backend integration to manage user data, event details, and prayer time calculations, ensuring accurate and efficient data handling.
- **Testing and Quality Assurance:** Conducted rigorous testing and debugging to identify and resolve issues, ensuring the app's reliability and performance across different platforms.
- **User Feedback Incorporation:** Gathered and analyzed user feedback to make iterative improvements to the app, enhancing features and overall user satisfaction.
- **Documentation and Support:** Created detailed documentation for the app's features, architecture, and user guides, facilitating easier onboarding for new users and developers.
- **Collaboration:** Collaborated with cross-functional teams, including project managers and community stakeholders, to align app features with user needs and community events.

● **EDUCATION AND TRAINING**

01/09/2019 – 17/02/2024 Homs, Syria

IT ENGINEER Al-Hawash Private University

Website hpu.edu.sy | Level in EQF EQF level 6

● **LANGUAGE SKILLS**

Mother tongue(s): **ARABIC**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B2	B2	B2
GERMAN	A1	A1	A1	A1	A1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **DIGITAL SKILLS**

Programming Languages - C,C++,Java,HTML and MS SQL server | App development: Flutter & Dart, React & React native, | Python (PyROOT, RDataFrame; ML: Keras, TensorFlow) | Parse and RESTful backend APIs integration, JSON parsing | Git | Javascript(Nodejs, ExpressJs) | Microsoft Office | Object-Oriented Programming
